Enzymatica's mouth spray to be launched in Turkey

Enzymatica's mouth spray against the common cold will be launched in Turkey, following the approval as a medical device in the country. This opens a new market of more than 80 million consumers.

The Turkish cough and cold market has an estimated worth of approximately EUR 1.1 billion and has shown a steady growth during the last years. Now Enzymatica's mouth spray against the common cold will be launched in Turkey, following the approval as a medical device by TITCK, the Turkish Medicines and Medical Devices Agency.

"Turkey is a large market with great future potential. We are happy that the product will be launched shortly, following a smooth and prompt approval process where safety and clinical performance data were reviewed", said Claus Egstrand, CEO of Enzymatica.

The product will be marketed, sold, and distributed in Turkey by Sanofi Consumer Health Care under one of its own brands.

Enzymatica AB develops and sells health care products for primarily conditions of the ear-nose-and-throat region. The products are based on a barrier technology that includes marine enzymes. The company's first product is the medical device ColdZyme®, a mouth spray against common cold. The product has been launched in about 30 markets on 4 continents. The strategy is to continue to grow by developing more health care products and strengthening the company's position in existing markets and expanding into new geographic markets through established partners. The company has its headquarters in Lund, Sweden, and is listed on Nasdaq First North Growth Market. For more information, please visit: www.enzymatica.com.
